

# TechCoatings: Interior

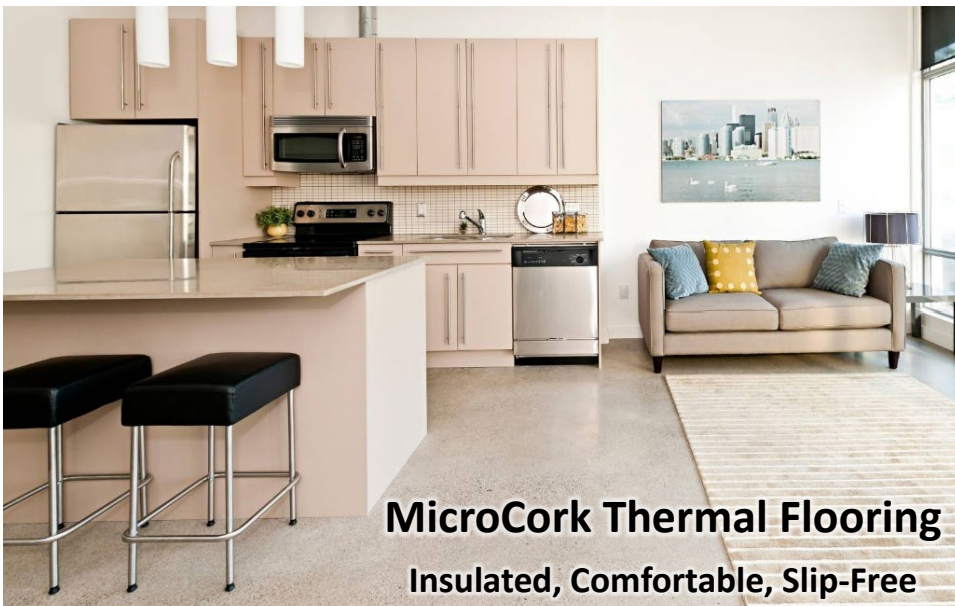

## ReveCork Fine & MicroCork Floors

### ReveCork: Interior Thermal & Acoustic Insulative

- Fine Grain Finish is a nice low texture
- Reduces Thermal Bridging, Anti-Condensation
- No Cracking, Shock Resistant, Washable
- Low VoC and Absorbs CO2
- Available in Any Color

### MicroCork: Flooring:

- ReveCork MicroCork is a building system based on natural cork (the phellem layer of the cork oak's bark) and cutting-edge acrylic resin sealed with dual component acrylic polyurethane
- MicroCork Base Layer, Finish Layer & Varnish Layer
- A new decorative concept for floors and walls
- Surfaces are prepared to insulate from the cold and the heat (energy savings of 20%), elastic surfaces (preventing hair cracks), comfortable and slip-free floors, acoustically improved, cut back on the echo, improve reverberation conditions on walls and floors), and all using environmentally-friendly products
